In the beginning, there was Pontos. Lake Pontos that is until an “Episode” changed its morphology. Prometheus Bound (Προμηθέας Δεσμώτης in Greek) by Aeschylus is a Classical Greek play that was the first tragedy to be staged in Greece in modern times (1927) at the Delphi outdoor Apollo Theater. It was organized by the American philhellene Ms. Eva Palmer. Prometheus so loved humans that he steals fire, hope, science and the arts from the gods and gives them to mankind, even though he knows that he would be sacrificed for his philanthropic deed. Prometheus prophesizes that with the gifts he bestowed on humans, they will overcome autarchic Olympian control. The play reflects the transformation of Athenian government from dictatorship to democracy during Aeschylus’s....

What crystallized this change for me was an encounter with antiquity. In my freshman year, I had registered for a class in world religion and one of the readings was the Epic of Gilgamesh, the first recorded epic poem. I was entranced by the strange world of Sumerian Mesopotamia, the tale of Gilgamesh and Enkidu. But coming to the section on the Flood I fell into an existential .....

Following their stunning victory in the 480 BCE Battle of Salamis, the unified Greeks rebuilt the Parthenon destroyed by the Persian King Xerxes. To commemorate that victory, Pericles and Phidias designed a series of metopes (friezes) to crown the sacred site and remind Athenians of victories over their 4 mythological enemies: the Trojans, Giants, Centaurs, and the legendary Amazons who infiltrated deeply into Athenian territory and established a camp near the Areopagus - “Ares Rock” - which they dedicated to their war god.....

Her book contains essays on great minds of the Golden Age of Greece when the Greeks broke away from the theocratic philosophies of Egypt and India, where religious priests formulated government responses to crises, to instead throw light on an anthropocentric universe where ....

[Religion in Greece was One and Many/Johnston.....30](#)

When one starts to look into ancient Greek religion, the first surprise may be that there was no such a thing. Or rather, that there were many such things. Not in the sense that there are many religions in America today (various Christian denominations, Judaism, Islam, etcetera) but rather that, although almost all the Greeks worshiped the same group of gods, they worshiped ....

[Heroes, the Ancient World Was Full of Them/Graf.....32](#)

Pelops, the founder of the Olympian Games, was such a hero whose grave was worshiped in the sanctuary of Zeus in Olympia, and whose cult was markedly different from that of Zeus: at the Olympic Games, the Greeks first slaughtered a black ram to Pelops, then white bulls to Zeus. The distinction is important: “Whoever eats of the meat for Pelops cannot come close to Zeus”, according to Pausanias. You could combine lamb and beef, at least ....
